

	O MATE 26.5 MIN MIT TO THE ST
	Longse
SPECIFICATION	
Model NO.	FK02GYW
System	T
Main Processor	MX3520
Operating System	Embedded LINUX
RAM	DDR3 512MB
ROM	EMMC 8GB
Screen	
Dimensions	7 inch IPS HD LCD screen
Resolution	736*1280
Camera	2MP night vision living detection camera
Type Sensor	1/5" GC2145
Resolution	NIR 800*600 15fps
Lens	2.4mm
Camera	
Туре	Daily camera
Sensor	1/2.8" SONY Starvis Back-illuminated CMOS sensor IMX307
Resolution	Color 1920*1080 30fps
Lens	4.5mm
Body temperature de	etection
Measuring site	Forehead
Temperature range	36-42 ℃
Temperature measuring distance	0.5-1m, 0.75m is the best
Temperature measurement accuracy	± 0.3℃
Temperature measurement response	Face library people: 1.5-2s, Strangers: 2.5-3s
Face recognition	
Detection Type	Support living detection, Mask detection
Face recognition distance	0.5-2.2m
Recognize face size	
Face database capacity	Max support 30,000 faces
Face Posture	(Daytime) vertical viewing 58°-60°, horizontal viewing 35°; (Living body) vertical viewing 48°-50°, horizontal viewing 36°
Occlusion	Ordinary glasses and short sea retention have no effect on recognition.
Occlusion  Expression	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.
Occlusion  Expression  Response Speed	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms
Occlusion  Expression  Response Speed  Face exposure	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support
Occlusion  Expression  Response Speed  Face exposure  Local Storage	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPv4, TCP/IP,HTTP
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms Support Support storage of 25,000 records Full image recognition TCP, HTTP, MQTT  IPv4, TCP/IP,HTTP  Authorized username and password
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPv4, TCP/IP,HTTP  Authorized username and password  Voice broadcast, Abnormal event upload to the platform
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPv4, TCP/IP,HTTP  Authorized username and password  Voice broadcast, Abnormal event upload to the platform
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPV4, TCP/IP, HTTP  /  Authorized username and password  Voice broadcast, Abnormal event upload to the platform  Support remote upgrade
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPV4, TCP/IP, HTTP  /  Authorized username and password  Voice broadcast, Abnormal event upload to the platform  Support remote upgrade
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out  Network Module	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPv4, TCP/IP,HTTP  /  Authorized username and password  Voice broadcast, Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light /
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPv4, TCP/IP,HTTP  /  Authorized username and password  Voice broadcast, Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light /
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out  Network Module	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPv4, TCP/IP,HTTP  /  Authorized username and password  Voice broadcast, Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light /
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out  Network Module  Interface  Network Interface  Alarm Input	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  IPv4, TCP/IP, HTTP  /  Authorized username and password  Voice broadcast. Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  /  Built in Speaker support voice broadcast after successful recognition  /  RI45 10M/100M Network Adaptation
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out  Network Module  Interface  Network Interface  Alarm Input  Alarm Output	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT   IPV4, TCP/IP, HTTP  /  Authorized username and password  Voice broadcast. Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  /  Built in Speaker support voice broadcast after successful recognition  /  RI45 10M/100M Network Adaptation  /  Channel relay output(NC or NO)
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out  Network Module  Interface  Network Interface  Alarm Input  Alarm Output  RS232 interface	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT   Authorized username and password  Voice broadcast, Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  /  Built in Speaker support voice broadcast after successful recognition  /  RV45 10M/100M Network Adaptation /  Channel relay output(NC or NO)  Support
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out  Network Module  Interface  Network Interface  Alarm Input  Alarm Output  RS232 interface  RS485 interface	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT   IPV4, TCP/IP, HTTP  /  Authorized username and password  Voice broadcast. Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  /  Built in Speaker support voice broadcast after successful recognition  /  RI45 10M/100M Network Adaptation  /  Channel relay output(NC or NO)
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out  Network Module  Interface  Network Interface  Alarm Input  Alarm Output  RS232 interface  RS485 interface  TF card slot	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT   Authorized username and password  Voice broadcast, Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  /  Built in Speaker support voice broadcast after successful recognition  /  RV45 10M/100M Network Adaptation /  Channel relay output(NC or NO)  Support
Occlusion  Expression  Response Speed  Face exposure  Local Storage  Recognition area  Upload Method  Network Functions  Network protocol  Interface protocol  Security Mode  Event linkage  System Upgrade  Accessories  Supplementary light  Identification Module  Audio out  Network Module  Interface  Network Interface  Alarm Input  Alarm Output  RS232 interface  RS485 interface  TF card slot  HDMI	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  //  Authorized username and password  Voice broadcast. Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  //  Built in Speaker support voice broadcast after successful recognition  //  RU45 10M/100M Network Adaptation //  I Channel relay output(NC or NO)  Support  Support  //  //
Occlusion Expression Response Speed Face exposure Local Storage Recognition area Upload Method Network Functions Network protocol Interface protocol Security Mode Event linkage System Upgrade Accessories Supplementary light Identification Module Audio out Network Module Interface Network Interface Alarm Input Alarm Output RS232 interface RS485 interface TF card slot HDMI Wiegand interface	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  //  Authorized username and password  Voice broadcast. Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  //  Built in Speaker support voice broadcast after successful recognition  //  RJ45 10M/100M Network Adaptation //  L Channel relay output(NC or NO)  Support  Megand 26, 34, 66 protocols
Occlusion Expression Response Speed Face exposure Local Storage Recognition area Upload Method Network Functions Network protocol Interface protocol Security Mode Event linkage System Upgrade Accessories Supplementary light Identification Module Audio out Network Module Interface Network Interface Alarm Input Alarm Output RS232 interface RS485 interface TF card slot HDMI Wiegand interface Reset key	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support  Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  //  Authorized username and password  Voice broadcast. Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  //  Built in Speaker support voice broadcast after successful recognition  //  RU45 10M/100M Network Adaptation //  I Channel relay output(NC or NO)  Support  Support  //  //
Occlusion Expression Response Speed Face exposure Local Storage Recognition area Upload Method Network Functions Network protocol Interface protocol Security Mode Event linkage System Upgrade Accessories Supplementary light Identification Module Audio out Network Module Interface Network Interface Alarm Input Alarm Output RS232 interface RS485 interface TF card slot HDMI Wiegand interface Reset key Anti-disassembly switch	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition.  About 200ms  Support Support storage of 25,000 records  Full image recognition  TCP, HTTP, MQTT  //  Authorized username and password  Voice broadcast. Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  //  Built in Speaker support voice broadcast after successful recognition  //  RJ45 10M/100M Network Adaptation //  L Channel relay output(NC or NO)  Support  Megand 26, 34, 66 protocols
Occlusion Expression Response Speed Face exposure Local Storage Recognition area Upload Method Network Functions Network protocol Interface protocol Security Mode Event linkage System Upgrade Accessories Supplementary light Identification Module Audio out Network Module Interface Network Interface Alarm Input Alarm Output RS232 interface RS485 interface TF card slot HDMI Wiegand interface Reset key	Ordinary glasses and short sea retention have no effect on recognition.  Under normal circumstances, slight expressions do not affect recognition. Abnormal event upload to the platform  Support remote upgrade  IR light, LED white light  //  Built in Speaker support voice broadcast after successful recognition  //  RJ45 10M/100M Network Adaptation //  L Channel relay output(NC or NO)  Support  Megand 26, 34, 66 protocols

,	
Anti-disassembly switch	
General	
Housing	Metal body and braket, Plastic screen, IP66
Operating Temperature	-20 ° C ~ 60 ° C
Working humidity	10% -90% Non-condensing
Storage Temperature	-40 ° C ~ 70 ° C
Storage humidity	5% -95% Non-condensing
Protection Level	
Power Supply	DC12V
Power dissipation (maximum)	≤ 12 W
Dimensions (mm)	219 (W) * 111 (H) * 21.5 (T)
Bracket size (mm)	ф25*189
Installation Method	Desktop Installation/Floor Support Installation
